

Pursuant to Article 15 and in connection with Articles 67 and 68 of the Energy Law (Official Gazette of the Republic of Serbia, No. 84/04) and Article 12 of the Statute of the Energy Agency of the Republic of Serbia (Official Gazette of the Republic of Serbia, No. 52/05),

The Council of the Energy Agency of the Republic of Serbia, at the extraordinary session held on February 20, 2008, passed the following

DECISION  
ON AMENDMENTS TO THE TARIFF SYSTEM  
FOR BILLING TARIFF CUSTOMERS FOR ELECTRICITY CONSUMED

*(This Decision was adopted with Government approval. The Government approval and the Decision were published in the Official Gazette of the Republic of Serbia, No. 21, on February 22, 2008)*

Article 1

In the Tariff System for Billing Electricity to Tariff Customers for Electricity Consumed (Official Gazette of the Republic of Serbia, No. 1/07, 31/07, 50/07 and 81/07), Article 4, paragraph 2, at the end of the sentence of item 4) the full stop shall be replaced with a semi-colon, and a new item shall be added with the following wording:

„5) the energy entity for electricity transmission, or the energy entity for electricity distribution that buy electricity to feed own power facilities (own consumption – transformer cooling, feeding of devices and control and protection systems of the facility etc).“

Article 2

Article 14 is amended as follows:

„The “metering point” tariff element is the total number of metering points of all customers.

For “public lighting” customer category whose active energy delivered is not metered but rather calculated according to the delivery time, the metering point is determined by the number of outlets – connections to the distribution network, and for the “flashing advertisements” group the metering point is determined by the number of advertisement panels.

The metering point for one customer and a calendar month is the total number of metering points under the context of paragraph 1 and 2 hereof. “

Article 3

The wording in Article 35, paragraph 3: “on which supplied electricity is metered for buyers,” is replaced with the following wording:” determined in accordance with Article 14 of this Tariff System.”

Article 4

Article 36, paragraph 5 is amended to read as follows:

„The electricity sold to customers referred to under Article 4, paragraph 2, item 5) of this Tariff System is calculated according to prices per tariff rates for active energy of the relevant customer category depending on the voltage level of the point of electricity delivery.”

#### Article 5

After Article 38 a new Article shall be added to read as follows:

#### Article 38a

In case a customer unregisters or registers in the course of a month in accordance with the act regulating delivery of electricity, the power for the calendar month of his electricity bill is determined on the basis of the number of days he was receiving electricity in that specific calendar month.

In case the customer's number of metering points changes over the billing period, customer's electricity billing for the revised number of metering points shall start in the calendar month following the month in which the change was made.

In case temporary facilities are connected in accordance with the act regulating conditions of electricity delivery for a period that is shorter than 30 days, the metering point power and charge are determined for the calendar month in which the connection was established, and the billing is done on a daily basis to the amount of 1/30 of the value of the calculated and set power, or 1/30 of the value of the “metering point charge” tariff rate.

#### Article 6

Article 42 is amended to read as follows:

„Within the period starting on the date of tariff system taking effect and ending on December 31, 2009, the Wide Consumption consumer category – the Household consumer group that has a three-phase connection with allowed power of more than 11,04 kW but less than 17,25 kW in the context of Articles 11 and 40 of this Tariff System, shall have their active power calculated for 11,04 kW, and if the monthly consumption of active energy in their premises is up to 350 kWh, active power for that calendar month shall be calculated for 6,9 kW.

Under the context of paragraph 1 of this Article, the monthly consumption of active energy of up to 350 kWh shall be determined according to Article 20, paragraph 6 hereof.“

#### Article 7

The wording in Article 43:” for buyers from Article 4, point 2 of the Tariff System,” shall be replaced with the wording, as follows: “from Article 4, paragraph 2, items 2 and 5 of this Tariff System.”

#### Article 8

The wording in Article 45: “from April 01, 2008” shall be replaced with the wording: “as of March 1, 2008.”

Article 9

This Decision on Amendments to the Tariff System for Billing Tariff Customers for Electricity Consumed shall be published in the Official Gazette of the Republic of Serbia after obtaining Government Approval and shall come into force on the next day following its publication.

No: 15/2008– D – I/2  
Belgrade, February 20, 2008

Council of the Energy Agency of the Republic of Serbia
